Morning Glory

Somebody's garden, there grew a val of my course as President during Morning Glory vine. Nobody knew the three years and a half I have to how it came there, for no one had planted it, but it was a pretty little thing, with green hearts for leaves and cunning little pale green curls here and there upon its fuzzy stem.

She wanted to get up off the ground where she had been all of her short life, so she crept slowly along to find something to take hold of that she might climb high up into the bright sunlight. She put out her tender tendrils and felt carefully along, for she was blind, poor little thing, and could not see where she was going.

As she reached out she felt something hard. "Ah, perhaps this is something high," thought the Morning Glory, so she crawled up the side quite to the top. But she was not high at all -not much higher than the groundfor it was only a small stone that she had found. So she sadly crept back quite discouraged.

There was an old man who used to take care of Somebody's garden, and he saw this plant growing there and groping about for support, so he fastened a string from a peg stuck into the ground up to Somebody's window sill, and then he quite forgot all about it.

The next morning the Morning Glory felt more cheerful, and she started upon her search again. She had not far to go this time, because the kind old man had fastened the peg very near to where she lay. So she reached about with caution to avoid another stone and took hold of the string.

The poor, sightless little thing did not know that the old man had put it there leniently, but the line had to be for her, but somehow she felt that it would lead her to where she wished to a sergeant complained that his go-up toward the beautiful blue sky

No one knew it yet but the doctor, and Somebody drew the little Morning Glory close to his lips the little green hand twined about the great white one, and this is what it going to be blind any more." And Somebody understood it, and the Morning Glory again felt two great, warm drops, which she knew to be tears But they were not bitter tears, like the first

they were tears of joy. After this Somebody went away and was gone a long time. The weeks passed, and he did not return, and the little Morning Glory was very sad. She felt hurt that he had left her so suddenly and with no word of adieu.

Everything was in a state of great bustle and preparation all over the place. Little Morning Glory could hear them hammering and running about, and she felt that something was going

to happen. Once she caught the word "bride," and something told her what it all meant, and a little jealous pain went through her heart, for she had once overheard the housemaid telling the cook that all men were fickle and that when they were away from one they never thought of one at all and were taken up with whoever was nearest them, and the cook had agreed fully with all that the housemaid had said, and the cook knew men if any one did,

So little Morning Glory hung her leaves in sadness and quite forgot to for there were a great many of them

Once she felt something tug at her roots, and a rough hand grasped her; then a kind voice said: "Don't touch that. Master loved the little vine, and It must be left as it is." Oh, how relieved little Morning Glory felt at these words! She reached out and tried to touch the speaker, but the maid hurried away and never saw the little green hands at all.

Soon the nights began to be chilly, and one by one her babies left her and fluttered to the ground, and she herself grew pale and felt very weak and ill, and she feared that she was going to die. How she wished that Somebody would come back! She was afraid that he would be too late.

One morning she heard the window open, and Somebody again stood there. There was some one with him now-a beautiful lady-and he held her in his arms and called her "Sweetheart." In his new happiness he had quite forgothis little friend, and Morning Glory's heart ached as she remembered what the maid had told the cook.

Just then Somebody looked out and saw poor little Morning Glory with her leaves all faded and brown, and he reproached himself because he had not thought of her before.

"Here, dearest," he said to the lady, "this is the little friend I told you of." And he laid the withered little stem in the lady's delicate hand.
